RHYLANDER LEAVES NORWICH TEAL

To Play Independent Eall in Providence-Other Sport News of the Day.

Accepting an offer to play independent baseball around Providence, Captain Ernest Rhylander of the Norwich team departed for Providence Friday afternoon, running the risk of the blacklist, which can be used against a player who skips out of organized baseball without securing his release.

It was the lure of money that tempted Rhy to make the jume as he received an offer from Providence that was too much to let go, he thought. Last week they were bidding for him also, but he held on here.

As an all around player the Norwich captain was the most valuabye man on the team, and his loss will make a bighole. He was a nice fielder, a reliable hitter, the leading run-getter of the league, and worth much to the nine

Yale Loses Princeton Series, 7 to 5—
Each Forced to Use Two Pitchers.

New York, June 17.—Before one of the largest crowds that has ever witnessed a college baseball game Yale went down to defeat before Princeton today by a score of 7 to 5 in the deciding game of a series of three. Princeton played an uphill game and her victory was due to pluck that persisted even when defeat seemed certain. The game was played in American league park.

wherever he was put. Manager Stone said Friday night that he did not know just how the lineup would be arranged for the game at Willimantic this afternoon, but he hoped to have a couple of new men that had ben sent after arrive in time to fill up any gaps.

A despatch from the Thread City says that Willimantic fans are of the opinion that Norwich will have to be content to take h trimming today when the Rosebude and Colts clash on the content to take h trimming today when the Rosebuds and Coits clash on the Windham field. Quite a number of sports were willing to take a chance on Willimantic against Norwich on Friday, and several wagers were posted, but unfortunately the game was called off from the Norwich and because of showers. There may be a shower today, but it will be a different kind, and if there are any balloon ascensions it will be on the Norwich end. It is predicted that one of the best, is not the largest, crowd of the season will be on hand to witness the game—and it certainly would be nice if the Coits could win—just to see how it would seem.

Academy-Bulkeley Postponed. The Bulkeley-Academy baseball gam which is the concluding one of the eastern division of the Interscholasti league had to be postponed on Frida because of rain. It will be played this afternoon on the Academy campus.

Rain Holds Up Norwich Again. Rain interfered with the Norwick schedule again on Friday, so that ther was no game here with Willimantic The two teams play in Willimantic this

FINANCIAL AND COMMERCIAL.

VERY DULL DAY ON 'CHANGE. smallest Business for Nearly Two Years-No Convincing Explanations. New York, June 17 .- Dealings in New York, June 17.—Dealings in bour fell below a hundred thousand shares the second hour's business con-tracted to one-fourth of that amount, and that meagre figure shrank by one-third again during the noon hour. Transactions in less than nine thousand shares in a period of an hour comes as near idieness as often occurs on the floor of the New York stock exchange. The aggregate for the day was less than 200,000 shares, the smallest day's business for the year, and, in fact, for nearly two years, a mid-summer day in 1908 blocking the range of the comparison with a total of 73,000. Brokers on the floor of the exchange were driven to horseplay as a resort from the duliness of conditions.

None of the explanations offered were very convincing. The gloomy, oppressive weather was held partly responsible. The observance of Bunker Hill and that meagre figure shrank by one-

bie. The observance of Bunker Hill day in Boston deprived the market of what has been a principal source of what has been a principal source of business lately, centering in the copper group. The interruption of Boston business relieved the coppers from some pressure and opened the way to their moderate recovery. The approaching enactment of the railroad law was gited as another repressive factor. President Ripley of the Atchison, Topeka and Santa Fe was authority for the statement that his company was waiting to see how the new law works before going on with improvements in view of its "drastic provisions." The operations of railroad presidents under the new law and their opinions

regarding it interest the stock market element as much as the law itself. The home-coming of ex-Prtesident Roose-velt was another subject discussed as helping to hold up stock market activ-The strength shown by the coppers was influenced directly by the reports of encouragement abroad over the course of that trade, and also by the requirements of a short interest

requirements of a short interest amongst foreigners in copper mining shares. The price of the metal rebounded sharply in London.

Money conditions excited only languid interest in view of the stagnant condition of the money market. Preliminary estimates of the week's currency movement promised another substantial increase in New York bank ing cash, sub-treasury operations for ing cash, sub-treasury operations for the week contributing to the showing. Business in bonds was rather better than in stocks, but there was no mark-ed revival, and the price movement was ragged and irregular. Total sales.

Mark I	Origin of "Buncombe"

Origin of "Buncombe." Buncombe comes from a country in North Carolina of the same name, which once formed the bulk of the

congressional district represented by Hon. Felix Walker. Once in a tiresome speech he was interrupted with the query: "Why?" and replied that while he might weary the house he was talking for Buncombe. A classic of the legislative days before the leave to print had been invented.

The essential charm of the farm remains and always will remain: the care of crops, and of cattle, and of orchards, bees and fowls; the clearing and improving of the ground: the building of barns and houses; the direct contact with the soil and the elements; the privacles with nature with bird, beast and plant; and the close acquaintance with the heart and virtue of the world .- John Burroughs.

They Do Not Make Love This is a wise saying of the Moors: A woman is like your shadow; run away from it and it will follow you; run after it and you can never catch it. The men of Morocco are not lovers, and all the preliminaries of the marriage are arranged by the parents. The women of the family have a very monotonous time, not being allowed to leave the houses.

Sign of Their Trade. "My mother wanted to hang my dress suit out on the fire escape to air it yesterday," said the boy who lives on the east side, "but I wouldn't let her. I didn't want people to think I was a waiter. Some people have dress suits on the east side, of course, but it's mostly waiters who can afford that luxury over here."-New York Sun.

The Flea. Oh, there's nothing quite so maddening as a pesky, crawling flea, when the little cuss is biting in a spot you can not see! Nothing which drives man or woman to the point where they will swear, like this hopping, frisky critter, when he's out upon a tear!-Los Angeles Express.

Coming Into Her Own. "She is enjoying the heydey of a woman's life." "What is that?" "After having to ask her husband for every cent she had for 30 years she has come into his life insurance."-St. Louis Post-Dispatch.

A Husband's Thought. "I spend some of the happiest mo ments of my life in here," said the man, showing his library to a friend. "Oh, don't you allow your wife in here?" quickly asked the friend .-Yonkers Statesman.

For a Cold. If one has a severe cold in the head, rub the bridge of the nose thoroughly with vaseline at night. This simple remedy works like a charm. Another effective method is to snuff warm salt water.

Not Disinterested. A Massachusetts professor says tough beef is as nourishing as the choicer cuts. Sounds like the utterance of a man who owns a dental parlor or a pepsin factory.-New York Evening Telegram.

Crop Was a Failure. "I suppose you know of my family tree?" said Baron Fucash. "Yep," auswered Mr. Cumrox. "It may have been a good tree, all right, but it looks to me as if the crop was a failone in the United States lives in New
